DETAILED ACTION

Claims 1- 29 have been cancelled in Preliminary Amendment.

Election/Restrictions

The cancellation of claims 1- 31 and 43-74 in Notice of Allowance of 2/19/2004 is rescinded.

Claims 30- 74 are pending in this application.

This application contains claims directed to the following patentably distinct species of the claimed invention:

a) Species I, e.g. claims 30-47 and 49- 60 : A semiconductor device having a precursor layer comprising a metal-free silicon-containing material.

b) Species II, e.g. claims 48, and 61- 74: A semiconductor device having a silicon-containing material that have been reacted with a reactive agent to form a barrier layer.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claims is finally held to be allowable. Currently, no claim is generic. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. 1.141. If claims are added after the selection, applicant must indicate which are readable upon the elected species. M.P.E.P. 809.02(a). Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filled petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

During a telephone conversation with Mr. Tim Hagan at (937) 223-2050 on March 08, 2004, a election was made without traverse to prosecute the invention of Species I, claims 30- 47, and 49- 60.

Reason for allowance

Claims 30- 47 and 49- 60 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed Semiconductor device having a precursor layer comprising a metal-free silicon-containing material and among other limitations as claimed in independent claims.
